PLANTERS' BULLETIN

OF THE RUBBER RESEARCH INSTITUTE OF MALAYA

A MEDIUM OF THE R.R.I'S SERVICE TO ESTATES
Articles are of direct practical use to planters.
Publication is on the first of each alternate month, issues being successively numbered.

19 60

RRI

LOCATION. The Institute's laboratories and office at the third mile, Ampang Road, Kuala Lumpur are open from 8 am to 1 pm and 2 pm to 4 pm on Mondays to Fridays, and from 8 am to 12.30 pm on Saturdays.

EXPERIMENT STATION AND FACTORY. This station of the RRI is situated 16 miles from Kuala Lumpur, at Sungei Buloh on the Kuala Lumpur — Kepong — Kuala Selangor road. Visits may be made on Mondays or Wednesdays by arrangement. There is a guest house.

CORRESPONDENCE. All LETTERS must be addressed to the Director, Rubber Research Institute of Malaya, Post Office Box 150, Kuala Lumpur. Special enquiries may be marked for the attention of particular officers. The address for TELEGRAMS is Searching, Kuala Lumpur. TELEPHONE: Kuala Lumpur 72051. PARCELS occasionally arrive without any indication of their origin. Senders' names and addresses should be written clearly on the outside of all packages, and advice of despatch should be given by letter or telegram.

PROHIBITED PLANT SPECIMENS. Attention of planters and others in territories outside the Federation of Malaya and Singapore is drawn to the Malayan Plant Importation Rules which prohibit the importation into Malaya of any part of a plant, whether living or dead, unless it is accompanied by a permit issued by the Director of Agriculture, Federation of Malaya. No permit will be issued in respect of any diseased plant or any plant pest. Any plant imported in contravention of these Rules (whose object is to prevent the introduction of diseases or pests) will be destroyed without examination. Anyone outside Malaya who desires our advice on any matter that may require examination of living material must first enquire by letter.

ADVICE. Enquiries are invited from rubber producers in the Federation of Malaya, Singapore, Nigeria, the colony of North Borneo, and the territories of Sarawak and Brunei, who may require more detailed information applicable to their own special problems. Where it is considered necessary, visits will be made to estates in Malaya as convenient. Visits to estates in other territories are by special arrangement. The only visits for which charges are normally made are those of our clone indentification inspectors. INTERVIEWS should be arranged by letter, as members of the senior research and advisory staff are frequently absent on visits to plantations.

PUBLICATIONS. Subscription to all or any of our series of publications (*Planters' Bulletin, Journal, Reports,* and miscellaneous booklets) may be made by depositing $15 with us. An annual statement of account will then be submitted. We are unable to give annual subscription rates or any form of discount, but for multiple subscriptions a lower rate of initial deposit is acceptable. Postage is charged on oversea mailings. A list of 'Publications of the RRI' is available on request.

PLANTERS' BULLETIN

OF THE RUBBER RESEARCH INSTITUTE OF MALAYA

Kuala Lumpur 1960 Main Contents

Planters' Bulletin 46

	Page
Editorial: The Estates' Advisory Service	1
Secondary Leaf Fall and South American Leaf Blight	3
Note: Demonstration of Root Disease Control	7
RRIM 600 Series Clones	8
Amendments to Planting Recommendations 1959-1960	13
Clitoria Rubiginosa	14
Low Ammonia Latices: The Use of Boric Acid	16
Notes: Damage by a Bamboo Rat	19
Review: *Journal*, Volume 16, Part 1	20

Planters' Bulletin 47

Editorial: Progress	23
Note: Boric Acid Latex	25
Production of PA 80	26
SP Rubber: Progress in 1959	26
Sheet Production. Rapid Drying Needs Good Machining	33
The Nitrogen Content of Leguminous Creeping Covers	35
Tree and Stump Poisoning	39
Notes: Clonal Resistance to Root Disease	44
A Nomograph for Sheet Rubber Drying	45

Planters' Bulletin 48

Editorial: The Natural Rubber Research Conference	47
RRIM 600 Series Clones in Estate Trials	49
Influence of Field Latex on Latex Concentrate Quality	60
Research Developments at the R.R.I.M.	65
Notes: Demonstration of Root Disease Control	68

Planters' Bulletin 49

	Page
Editorial: Technical Service to the Malayan Rubber Manufacturer	71
Planting Materials Used in Malaya 1955-8	72
Removal of Pigments from Latex for Pale Crepe Production	80
A Crown Budding Experiment	84
Notes: *Cuscuta australis*. A Parasite of Cover Plants	86
Review: *Journal*, Volume 16, Part 2	87
Patents: Low Ammonia Preservation of Latex	89

Planters' Bulletin 50

Editorial: Replanting on Small Estates	91
Seed Treatment and Sowing Methods for Cover Crops	94
Soil Reaction and Rubber Cultivation	98
An Experiment with Magnesium Limestone	103
Notes: Review: *Journal*, Volume 16, Part 3	105
Patent: Boric Acid Latex	107
Exports of Boric Acid Latex	108
Australian Import Duty: Exemption of Special Rubbers	108
Termite Control	109
Identification of Clones	109

Planters' Bulletin 51

Editorial: An Outstanding Success	111
Recent Developments in the Diagnosis of Fertiliser Requirements	112
Stimulation of Yield: A Comparison of Proprietary Yield Stimulants	114
Two *Phaseolus* Species of Interest	119
Trapping Cockchafer Beetles	122
Heat Scorch by Pebbles	125
Book Review: *Manual of Rubber Planting (Malaya) 1958* by A.T. Edgar	126
Note: Illustrations of Pests and Pest Damage	128
INDEX	130
